# TRAUMA TRAINING TUESDAY

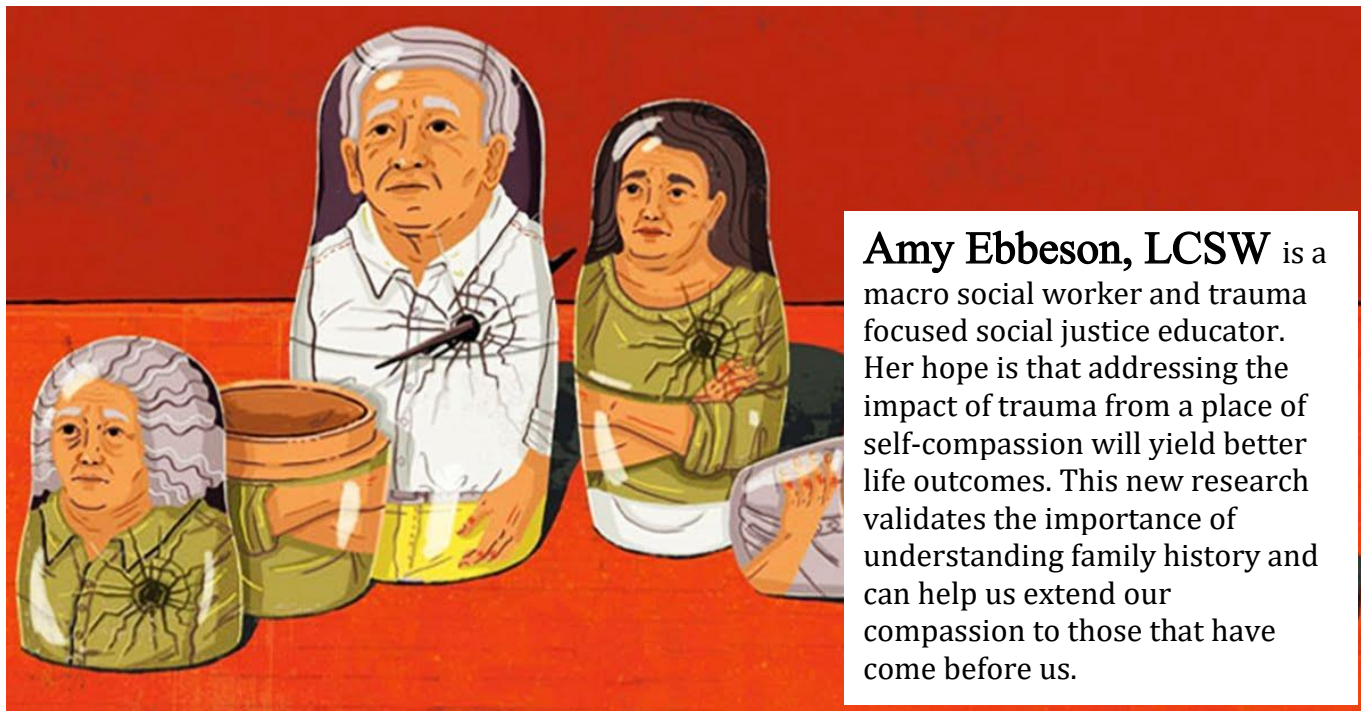

VIRTUAL/ZOOM

THIRD TUESDAY OF THE MONTH

12:00 P.M.-2:00 P.M.

## INTERGENERATIONAL TRAUMA

Many of the psychological burdens we bear may not be our own. The latest in Mental Health research has shown us that ancestors may have genetically encoded their traumatic responses, passing them to future offspring they may never even meet. This presentation will help to make sense of this and will offer promising practices in the treatment of intergenerational trauma.

Using the link below you should be able to join from a desktop, laptop, tablet, or phone at noon on May 21st. It will be recorded for later viewing. No need to RSVP to join, and please share!
