TRAUMA TRAINING TUESDAY

VIRTUAL/ZOOM

THIRD TUESDAY OF THE MONTH

12:00 P.M.-2:00 P.M.

The Trauma of Immigration

Human migration is not new. Only the most difficult circumstances would compel people to leave behind their homes and countries of origin in search of a better life. People leave behind everything they know. Reasons include violence, corruption, poverty, climate change, religious persecution, and more. Often, their journey is perilous. They may endure further violence, inhumane conditions, prejudice, racism, continued poverty and limited access to needed resources, such as housing and medical care. They also become social scapegoats- an easy group to blame for our deteriorating social fabric. The truth is, over time, they typically contribute far more resources than they take. Jillian will give the audience an accurate local assessment of the current situation and advise on how to help.

Jillian Phillips, LCSW is the New Americans Coordinator for Worcester. In this role, she pulls together resources across the city and state to help individuals and families get their tangible needs met. Her social work background allows her to also consider the impact of the social environment. It is her hope that our community continues to recognize the valuable contributions of this population and the trauma they have endured in search of a better life.

Using the link below you should be able to join from a desktop, laptop, tablet, or phone at noon on June 18th. It will be recorded for later viewing. No need to RSVP to join, and please share!
